SUGAR KING IS STRICKEN.

Class Spectacles Has Another Apoplectic Stroke.

Dead is so Affected That He Cannot Speak.

His Condition Critical—Form Gas Testimony—Shewell Holds Cliff House.

BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Nov. 20.—[Exclusive Dispatch.] Class Spectacles, the famous sugar king, who is reported to be dead, was struck by a stroke of apoplexy on the morning of the 19th, and has since been unable to speak.

His condition is so critical that he cannot speak, and his condition is so critical that he cannot speak.

along the White Pass Railway, said to contain tungsten ore, for which the Carnegie Steel Company and Krupp Works at Essen stood ready to pay \$400 per ton.

Rollins had a hundred tons of ore delivered at the Shagway wharf for shipment to Pittsburgh. He sent and received a number of telegrams purporting to show that he had made one of the greatest mineral discoveries in the history of Alaska. He was then arrested and he was arrested. He pleaded guilty before Judge Brown to two indictments charging him with obtaining money under false pretenses.

BRIDAL COUPLES SAVE SHIP. EXCITING TRIP DOWN TUKON.

(BY DIRECT WIRE TO THE TIMES.) TACOMA (Wash.) Nov. 20.—[Exclusive Dispatch.] A thrilling trip down the Tacona River from White House to Tacoma was ended Oct. 21, when Mayor McLennan of Tacoma, and his wife, Mrs. McLennan, arrived there aboard a houseboat, bringing with them two bridal couples and eleven other guests, making a total of sixteen. The trip was sensational in many particulars, being made in five days with ice floes and masses of running ice on all sides. Many times the houseboat was surrounded and it seemed probable the craft would be crushed between heavy masses of rapidly-moving ice. Mayor McLennan's boat was kept in motion day and night, it being feared the river would freeze solid before the trip could be completed.

Strange to say the houseboat did not once run aground, although she passed numerous steamboats and other boats ashore on islands and sandbars. The good luck of the craft was attributed in large part to the presence of the bride on board. The interior of the boat was provided with bunks, mattresses, stoves, tables and chairs. From White House to Tacona the houseboat was towed by the tugboat, the steamer Casca, making the remainder of the trip alone. The bridegroom, John Van Curran, of Los Angeles and wife, and Henry Lamb and wife of Sulphur Creek.

SLOPE REBELS.

Alleged Horse Thief Insane.

SALINAS, Nov. 20.—Emil von Delmer, the alleged horse thief who was recently arrested after attempting to shoot the members of a pursuing posse, has been adjudged insane and committed to the Agnew Asylum.

Colored Soldier's Assault.

SAN FRANCISCO, Nov. 20.—A colored soldier named Mages made a murderous assault today on First Lieutenant Benjamin J. Edgar, assistant surgeon, who is executive officer at the general hospital at the Presidio. He attempted to shoot the doctor, but his pistol would not work. The preliminary examination of the case was held by Judge of the Peace Sturges of Polson. He held the man to answer for murder and ordered them in the custody of the sheriff, Thomas Wilkinson, warden of the prison, would not permit the sheriff to take the convicts away without an order from the Superior Court.

Natural Gas at Stockton.

STOCKTON, Nov. 20.—At the window-glass works here a large flow of natural gas has been struck at a depth of 200 feet, making a total of 700 feet of gas in the vicinity since last evening, and there are no signs of a let-up. Already this season there has been sufficient rain to more than equal the record of last season, though this season's rain came much later. The rain is very welcome to the farming interests, and it means an increased acreage of grain, with particularly good prospects for summer fallow.

WELCOME AT SAN JOSE.

SAN JOSE, Nov. 20.—The first heavy storm of the season visited this city last night, the precipitation amounting to .75 inches, making a total of 2.18 inches for the season, against 4.18 inches for the corresponding period last year.

DEMOCRAT NAME COLLINS.

Renominated For Mayor, of Boston.

Socialists Put up Dr. Galvin—Much Interest in Primaries.

(BY THE ASSOCIATED PRESS—A.M.] BOSTON, Nov. 20.—Complete returns today from the city primaries of yesterday show that Patrick A. Collins was renominated for Mayor by the Democrats by a plurality of 18,000 over Dr. W. Q. Jersey, his two contestants for the nomination. The total vote of Mayor Collins was 28,000, and Dr. W. Q. Jersey was nominated by the Socialists for Mayor.

Unusual interest was felt as to the result of the vote for Aldermanic candidates of both parties, especially concerning what effect the endorsement by the Good Government Association would have. Of the eight Democratic nominees one had the endorsement of the association. Three others endorsed by the association failed of nomination. One Democratic Aldermanic nominee, James McCurran, is at present serving a sentence for fraudulent impersonation at a civil-service examination. Two of the Republican nominees for Aldermen were endorsed by the Good Government Association.

REBELLION ENDED.

BERLIN, Nov. 20.—The Governor of Windhoek, German Southwest Africa, telegraphs that Lieut. Jobst and Sergeant have been killed in a battle with Herero rebels near Windhoek. The rebels also were killed. The Governor adds that the rebellion is practically ended.

Fire yesterday destroyed the old Masonic Temple Building in Louisville, Ky. The loss is estimated at \$200,000.

A Beautiful Stock of Fine Instruments To Select From....

Whether you seek a violin, a piano, a pianola, an organ, or one of the score or more of smaller instruments, you will find a wide variety here to select from. We have congregated here the largest stock of musical instruments on the Pacific slope, including the famous Chickering Piano, Pianola, and Vocalion Organ, and we are always glad to show them whether purchases are contemplated or not.

Established Agents for the complete Chickering line of instruments. Sole agents for the Pacific Slope.

San Diego Branch 1004 1/2 Fourth St.

For more than thirty years in an open book, during a violent rain storm. Finally he was rescued as the boat was drifting out to sea. He cannot recover.

After Polson Convicts.

SACRAMENTO, Nov. 20.—Sheriff David Reese, accompanied by Deputy Sheriff William Lowell, went to the Polson Penitentiary last night to take the convicts Levenson, Roberts and Meyers, who were recently held to answer for a charge of having murdered Guard William Cotter on the day of the great break at the prison in July last. The preliminary examination of the case was held by Judge of the Peace Sturges of Polson. He held the men to answer for murder and ordered them in the custody of the sheriff, Thomas Wilkinson, warden of the prison, would not permit the sheriff to take the convicts away without an order from the Superior Court.

SEVENTY-TWO YEARS OF AGE;

KIDNEYS AND BLADDER HEALTHY.
"Years Ago," Says Mrs. Hanson, of Brooklyn, N. Y., "I had Inflammation
of the Bladder and Kidneys; My Back Ached Incessantly,
I Suffered Nervous Dyspepsia and Could Not Sleep,
but Was Completely and Permanently
Cured by Warner's Safe Cure
and Have Kept Perfectly Well Ever Since."

MRS. HANSON'S LETTER:

"Many years ago I had inflammation of
the bladder so badly the doctor told me I was
doomed with diabetes. My back ached inces-

santly; the quantity of urine passed was
enormous and contained sediment the color of
brick dust. I had nervous dyspepsia and was
not able to sleep. In fact, there was not a
sound organ in my whole body.

"I tried told me what WARNER'S SAFE
CURE had done for her, and I began taking
it with good results. My case was an extra
bad one, because I had had kidney disease
for many years.

"Two bottles of Safe Cure did me more
good than all the years of doctoring.

"I took it awhile longer and was com-
pletely and permanently cured, not only of
bladder trouble, but also of kidney disease,
and have never had another attack of either.

"I am now 72 years of age and my bladder
and kidneys are in perfect condition. I am
very grateful for all Safe Cure has done for
me and I recommend it heartily to everyone
suffering as I did."—MRS. M. HANSON, 34
Elkhart Place.

We have thousands of such letters from
careful men and women who have been re-
leased from years of suffering and death by
Safe Cure after all else had failed.

The kidneys have more to do with keeping
the system healthy than any other organ of
the human body, and yet are the weakest of all
and the most attacked by disease.

Kidney disease, if neglected, quickly permeates the whole system and causes
Rheumatism, Gravel, Diabetes, Rheumatism, Indigestion, Headache, Inflammation
of the bladder, Blood poisoning and other serious complications, with death in con-
sequence.

YOU HAVE KIDNEY DISEASE

If you have pain in back or head, rheumatism, gout, swellings, gravel, indigestion, dis-
tended abdomen, constipation, torrid liver, nervousness, blood troubles, bad complexion,
painful menses, or urinary troubles, or if you are unable to urinate, or if you have
which stands 24 hours, or if a woman, painful periods, bearing down sensation, fainting
spells or "female nervousness," these are all the warning signs of kidney disease. It
appears until the kidneys have been affected for months and have reached a very dangerous
stage. The only safe remedy is to have your kidneys treated with WARNER'S SAFE
CURE, that for 20 years has been recommended and prescribed by doctors everywhere and
used in leading hospitals exclusively, as the only safe, certain and permanent cure for
all diseases of the kidneys, bladder, liver and blood.

It soothes inflammation and irritation, repairs the delicate tissue, breaks up and
eliminates uric acid, restores energy, builds up a new system, and cures all kidney
disease. Safe Cure is made entirely of herbs, contains no harmful drugs, is free from medi-
cine, and is safe to take. All druggists sell it. Ask for it, or direct to the

AGENTS—Eastern Agents, Williams & Lawrence, Inc., 110-111-112 Tribune Building, New York City. Western Agents, Chicago, Washington Bureau, 100 Post Building, where the latest news of the Times may be obtained.

Offices: Times Building, First and Broadway.

Printed at the Los Angeles Postoffice for transmission as mail matter of the second class.

BUSINESS.

Business in all quarters is reported good and the demand for money is active. Yesterday the local bank clearings approximated a million dollars, showing a substantial increase over the corresponding period of last year.

A flurry in call money rates, which ran up to 4 per cent, causing apprehension in the money market, was allayed by the effect of setting back prices in the New York stock market. Opening transactions in steel stocks and bonds were enormous. Steel preferred made a net loss of one point for the day. Southern Pacific was lifted an extreme high point. Chicago grain and cereal prices went upward.

AN UNGRAVEFUL BACKDOWN.

As when the so-called "Miller case" first came into public notice, through the dismissal of William A. Miller from the Government Printing Office, and his reinstatement by express order of the President, a great howl was made up and down the land, by professional labor-union jawsmiths, because of the President's action. The President was freely accused of being "unfriendly to union labor," and a concerted demand was made that Miller be removed forthwith by the President. The threat was made that in case of a refusal on the part of the Chief Executive to obey the mandates of the union bosses, the labor unions would inaugurate a deadly and pitiless war of political extermination against the President, and so forth.

The labor jawsmiths (who don't labor) evidently believed that all they had to do to order to frighten the President into hurrying compliance with their demands was to make those demands known with the requisite amount of brag and bluster. If they had known the President better, they would have known that such a course of procedure would be the surest thing in the world to mortify him. They demanded Miller's second removal principally on the ground that he had been expelled from the union, although, for the sake of appearances, and to give the President a chance to "let himself down easily," they threw in a few other vague charges. The President's reply to the demands of the jawsmiths is well remembered. He showed about the same fear of their threats as he did of Spanish bullets on the firing line. "I must govern my action by the laws of the land," said he, "which are sworn to by me and which I am sworn to administer, and which differentiate any case in which the government of the United States is a party from all other cases whatsoever. These laws are enacted for the benefit of the whole people, and cannot and must not be construed as permitting discrimination against any one of the people. I am President of all the people of the United States, without regard to creed, color, birthplace, occupation, or social conditions. My aim is to do equal and exact justice as among them all. In the employment and dismissal of men in the government service, I cannot recognize the fact that a man does or does not belong to a union, as being for or against him, than I can recognize the fact that he is a Protestant or a Catholic, a Jew or a Gentile, as being for or against him. Thus the President threw down the gauntlet of battle to the narrow proscriptionists who would deny to all men not members of their organization the right to work for the government, which is supported by all the people.

Did they dare to take up the challenge? Not at all. Did they agree to carry out their declared scheme to bring about the President's political defeat, because of his unchangeable attitude in behalf of justice and fair play? Not that anybody has heard of up to the present writing. The jawsmiths, perceiving that their contemplated war against the President would make him even more popular than he is, and that it would strengthen him politically, rather than make him weaker, evidently concluded that the proposed war was hardly worth playing. The demand that Miller be again discharged from the government service because of his expulsion from the union, has not been levied upon. But at Thursday's session of the American Federation of Labor a resolution was adopted in the nature of a petition (not a demand) for the President "examine into the affidavits and testimonials submitted by Local Union No. 4, International Brotherhood of Bookbinders, to Public Printer Palmer, and upon verification to immediately remove him, William A. Miller, from the government service."

This, it is evident, is a very different proposition from that of a demand that Miller be summarily dismissed from the government service because he had been expelled from his union. If the charges that Miller is a "big game" hunter and a "defaulter" could be proven, his dismissal from the government service would be of course proper, on the grounds of those charges alone. But

this has absolutely nothing to do with his membership or non-membership in a union. Moreover, the consideration of action upon such charges has no proper place in connection with the original campaign inaugurated by the union printers and binders against Miller. It is an unfair man for the public service, his superiors have ample power to dispose of his case without any assistance from the proscriptionist union gang.

The jawsmiths who set out to force the President's hand in this matter have been compelled to beat an ignominious retreat from their absurd and untenable position. It is well for them and for the organizations which they misrepresent that they have taken counsel of discretion in this affair. They have retreated from the premises, but they have succeeded in making themselves a common laughing stock.

THE SOUTH AND PANAMA.

There is little cause for surprise in the fact that the Democratic Senators have thus far been unable to agree upon a plan of opposition to the President's Panama policy. Nearly all the Democratic Senators are from the South, and the South, for commercial reasons, wants the Panama Canal.

The building of the isthmian waterway will be of great benefit to all parts of the country, but to no section more than to the Southern States. The products of those States will pass through the great interoceanic gateway to the Orient in vast and constantly increasing quantities, and the world-commerce of the Pacific will pour its wealth into southern ports. Statesmen of the South perceive the immense benefit which will flow to their section through the opening of the Panama Canal. They are impelled, on the one hand, by an enlightened self-interest, which is not altogether selfish, and on the other by a narrow tradition which leads them to oppose the national administration, when it is Republican. It seems to be one of the characteristics of the Southern States, that they will prove to be the stronger. There is some reason to hope that the broader view will prevail, and that such opposition as may develop in the Senate to the new Panama treaty will not be organized, if organized at all—on partisan lines. A two-thirds vote of the Senate will be required to ratify the treaty. There will possibly be a few Republican dissentients, but the present indications are that there will be enough votes from the other side to assure ratification.

On strictly partisan issues, the "solid South" may be depended upon to align itself in the Democratic column, through thick and thin, through evil report and good report. But the isthmian canal proposition is not a partisan issue, and no juggling by political leaders can make it one. If the Democratic leaders imagine that they will get on on a solid South in opposition to this greatest engineering enterprise of the centuries, they will probably find, when the matter shall have been brought to a final test, that they have greatly underestimated the patriotism and sagacity of the South.

SAIL ON!

"What shall I say, brave admiral, if we might naught but seas at dawn?"

"Why, you shall say at break of day: 'Sail on! sail on! sail on!'"

Our great nation, forging along to its ultimate destiny in a world that has blessed and uplifted, has always had to deal with its own timid ones; with theorists who spin threads to find that the perilous break them; with calamity-bowlers and the prophets of despair. For one reason or another, these kinds of people, each in his own way, have endeavored to forestall every step of progress attempted by all the administrations of the government from Washington's down to Roosevelt's. They are a species of patriot, well meaning enough though they sometimes do, who spend their time in shaking warning fingers at the procession of advancement sweeping majestically past them. Wide-scattered is the tribe of them, nor are they always confined to one particular political party nor to any one section of the common country. They opposed the Louisiana Purchase, the accession of Alaska, Hawaii, the Philippines, and every other movement made for the growth, expansion and strengthening of the position of the United States among the powers of the earth. They denounced Thomas Jefferson in 1803 as a dangerous visionary; they pilloried William H. Seward in 1867 as the most egregious ass of his generation, and just now, they are in the throes of catatony over the development of the isthmus of Panama.

What sort of Americans are these

who would not trust their country's glory and honor outside of the international league of miles that fixes its place within the high seas? How dimmed their eyes as they view the tremendous events of this stirring age! What a strange system of logic they must pursue to suppose that their own country should or could sit idly by, careless of its opportunities or senseless to the dangers of encroachment from its rivals and possible foes!

"Imperialism," they cry. "This is conquest, dangerous expansion, evil territorialism and lust of power," they wall. They grasp at the folds of the flag and beg that it be kept at home lest "the goblin-uns will catch it." As the Ship of State sails on and the peoples who, either as our neighbors, natural friends or allies, raise signals of distress or appeal to us, then we hear these strangely constituted contrivances of ours blurt out: "Keep off, keep off, or we sink."

Fear not, timid brethren! Wherever the flag goes the Constitution will follow it. Wherever that brave old banner waves no slave can breathe, no tyrant rule, no wrong nor oppression can endure. To all who strive and struggle for equal rights and the boon of law and order it is the symbol of hope and the banner of peace. If it conquers, its conquests are blessed. Upon whatever land or sea it sheds its glory, the weak rise up with new strength and the downcast hail it with gladness. And let no one fear that the flag will ever be carried where it is needless for it to go. But there are places where it must go, where it is called upon to go, and there it will be found.

"What shall I say, brave admiral, if we might naught but seas at dawn?"

"Why, you shall say at break of day: 'Sail on! sail on! sail on!'"

The patriotic women of Los Angeles have arranged for a tree-planting party early in the new year have stolen away from their homes to plant a tree for something of that sort, but they have been too busy making money to have time to do so. They have been too busy making money to have time to do so. They have been too busy making money to have time to do so.

LIQUID AIR
LIGHTS CITY.

Seen Last Night by
Prof. Bobrick.

and Sewage and Run
all Sorts of Machines.

Talks to Bank Men on
What His Hot Stuff
Will Do.

W. A. Bobrick gave the maiden
operation of his sewage-sterilizing
machine by means of liquid air, be-
ing the Santa Clara Association last
night at the Southern Cali-
fornia Music Company. It is just three
years since Prof. Bobrick
brought this city what was then
the only commercial
method of liquid air in the world.
It has been a financial success,
and within one year from this time
the machine will be able to furnish
refrigeration for household use, for re-
frigeration and ventilation purposes, at a
cost below the cost of ice and
innumerable advantages
of the old method.

Last night he expected to
show when at a cost of \$5 he will
run a locomotive hauling a
train from Los Angeles to
Pasadena, and at the same time
show the power of the liquid air
exhaust from the power house.

He claims to have added another
innovation to the record
book of the city of Los An-
geles in his sewage-sterilizer,
which it too, is the first of the
kind in the world.

At no distant day to be
eliminate the city of Los An-
geles one-fourth the cost of lighting
electricity, run an endless quan-
tity of machinery at the same time,
and the entire sewage of the
city absolutely pure water by the
exhaust from the power house.

He demonstrated his ability in this di-
rection last night by placing a gallon
of air in a copper boiler, by
he ran at a high rate of speed a
engine, producing at the same
time powerful lights of 2000 candle
power, more brilliant than calcium
and of wonderful beauty and as im-
mense as sunlight. With the exhaust
from the light thus produced could
be run a large scale of
of one-half cent per thousand
power per hour.

The demonstration Prof. Bo-
rick with liquid air to the great
of the large audience of ladies
and gentlemen. The experiments con-
sisting of cranberries and va-
rieties of vegetables in the liquid
air time fusing steel pens;
balls until they broke like
mercury, alcohol and
gave many other demon-
strations of the power of the mar-
velous liquid air.

THE RAILROAD RECORD,
OF RAILWAY TIES.

ROADS OF THEM PASSING
THROUGH THE CITY.

Who Knows Where They Came
From? They Are Going—Electric
Officials Making an Investi-
gation to Solve the Mystery.

Don't know whether the com-
pany has been robbed of a lot of ties
which is the predicament of cer-
tain of the Los Angeles Rail-
road Company, who are busy investi-
gating something of a mystery that is
has happened several nights

has reached headquar-
ters in the wee, small hours of
morning a number of wagonloads
of ties in the direction of Naud
street. Where they were going, and
who came, nobody in authority
at the office of the Los Angeles Rail-
road Company knows.

It has been issued that the mat-
ter is thoroughly probed, and if it is
found that any quantity of the com-
pany's ties are missing, the wagonload
will be delivered into.

It is no feeling on the part of the
company that any wholesale pilfer-
age of ties that were moved
from the stock of ties has taken place,
but it is deemed a significant fact that
the master of neither of the Hun-
dred railway companies
of any ties that were moved
from the northern part of the city in
the last few nights might be paid.

to any haphazard rumor of
that might drift into the office,
the Los Angeles Railway Company
instance is said to have gained
information from a trusted em-
ployee who regards his "tip" as per-
fectly reliable.

any event, the matter is under in-
vestigation, and the nocturnal wagon-
load of mystery may lead to some
interesting disclosures.

Called last night if the Pacific
Railroad Company had lost
large amount of ties on its new
roads running out of Los
Angeles into unsettled territory, an
investigation of that company would
be of no use in this regard have
been lost—nothing to pay much
attention to. You might really sup-
pose in building a new road out
of the country, we would thus make
liable to considerable loss
through unpoliced sections. Well,
we can't keep a man sitting
there and some are stolen, but
the men to patrol the line and
the ties do not make out with
the property by the wagonload. Nat-
urally we lose quite a number of
ties in the best ones are worth at
least 50 cents apiece. They make ex-
cellent fuel for a steam engine,
and are split into rough lumber for
the use of a barn yard. Often
the ties are used as a last resort
for the possession of fuel. No system
has even been devised
to keep all of this property
from the possession of thieves. No
division men responsible and
no suitable means to pro-
tect the ties. Further than
this we do not go. Otherwise it would
be necessary for us to watch the man

Phillip Stubbs, the famous Pur-
itanical writer, 1593, states:

"Shirts, twenty and even
forty shillings—and some as
much as five pounds a piece,
and, what is horrible to hear,
some even ten pounds a piece."

Today, for 75c, we can give
you a more satisfactory shirt
than Phil ever saw.

Handsome stiff bosom colored
shirts, regularly \$1.00, special
for today at 75c.

Children's Specials

to offer for Saturday. There are always numerous im-
portant items in this large department, many that are
never mentioned in our advertisements, as space will
not permit. Showing, as we do, one of the largest
stocks of Children's Wear on the Coast, we afford you
better advantages for careful choosing from the latest
and most up-to-date goods, and from all the best and
most stylish Children's Dresses and Misses' Suits. We
give a few notes from this important department.

An extensive line of exclusive ideas
in Junior Suits, separate skirts,
jackets and reefer, in sizes from 4
to 14 years.

A handsome line of Misses' Junior
Suits, in the new shades of tobacco
brown, navy, tweeds, ribelines and
mixed goods. They range in price
from \$15.50 to \$30.00.

A few extreme novelties in
Paris Pattern Coats at one-half
price.
A full line of children's long and
Box Coats, from \$2.00 to \$10.00.
Children's Wool Dresses in all
the new effects, made and fin-
ished in the best possible man-
ner. From \$3.50 to \$20.00.

Children's Hats at Half Price

We place on sale Saturday a full assortment of Chil-
dren's hats, all this season's productions, in colored
felts and velvets and silks. All are handsomely
trimmed and are new and fresh. On sale at half price.

THOUSANDS CHEER BARNEY AND BULLET.

Oldfield Given Credit of Making a Mile in Fifty-five Seconds and Breaking World's Record—All Other Racers Seemed to be Tied.

BARNEY OLDFIELD'S attempt to commit suicide at Agricultural Park yesterday only resulted in a compound fracture of the world's automobile record.
It would seem simpler and easier for him to hire some one to brain him with an ax than suffer this lingering destruction.
It looked this way: a flash of white shirt down the back stretch, a dark streak on the horizon across the fields, a cloud of dust far up the track, and before you could leap over the rail to see, a rushing mighty wind sweeping by under the wire and everybody beginning to shout. That is what it was like to see Barney Oldfield do a mile in 55.
Some one who did not see it asked if Barney looked up at the grand stand to see if he were making a hit as he went by.
Suffering snakes!
If Barney wanted to look at the grand stand, he would have to start looking somewhere at the half-mile post. If he had glanced up in the ordinary way, his roguish look would have hit a harmless cow browning in the green fields half way round the track.
Why, if Barney's hat should blow off, he could catch it on the next lap before it hit the ground. This assertion cannot be proven because Barney does not wear a hat.
A policeman was clearing some boys off the fence yesterday while Barney scorched a mile. Men with yellow badges began whooping frantically at him. The copper looked up mildly at a distant cloud of dust rising far off down the track, so far that the automobile could be barely distinguished. He went on leisurely shooting off the boys. In thirteen seconds, before he could speak to the next boy, the devil car skinned his coat tails as he dove for life over the fence.
Barney moves some.
This Mr. Barney has a cigar that is like Sampson's hair. If you took that cigar away from his teeth, a playful Billygoat could gambol with him as he scorched. Some day an enemy of his will reach out from the fence and take it away from his face as he rides. You ought to see him crunch it between his jaws. It is the only sign in his impassive face. Things were getting rather slow yesterday when some men came shoving a dark-red low devil-cart out on the track down by the paddocks. A finely built, young fellow in his shirt sleeves with a heavy baseball player

against him with machines like his, there being but one—some dare-devil or fool?

RACE BY RACE.
In the presence of such a throng as has seldom congregated in Agricultural Park, recognized by a hearty cheer before he was announced, sitting in a racing machine of the latest design and of almost locomotive power, on a track planned to the smooth surface and levelness of a billiard table, stimulated to his best efforts, another than an Oldfield might have broken records yesterday.
The trick was done by the champion chauffeur so easily that few in the audience realized the wonder of the performance. For while Oldfield beat the best work of his hardest competitor—himself—with ease, he at the same time tore another record into bits, by encircling the course at Agricultural Park faster than any creature of iron and steel or flesh and blood ever traveled.

the cars they partook more of the nature of speed exhibits than of actual competitions. Oldfield had the rest beaten so far at that part of the game that many lost interest after seeing him. There was nothing on the track that he could not lead a mile in ten, and a succession of accidents, burning machines, bad acting gas engines and other mishaps made long tedious delays a feature of the succeeding events.
Frank Garbutt, the only amateur in the bunch, had the misfortune to blow out a steam connection to his engine and had to retire, until late in the afternoon, when his fire refused to work properly. H. D. Ryan had a hard time with the White Ghost, which manifested a desire to burn him up at every opportunity, and would be improved with a fire pump attachment. Bruno Siebert could not make his big Mercedes work properly, and appeared to be running on three cylinders much of the time, judging from the explosions. The little Franklin truck, which has been running fast trials all the week, behaved well, as did a big Toledo four cylinder special, but most of the gasoline wagons were full of crank.
The programme was variously swelled around it, being impossible to bring off the races in order, owing to the accidents. The opening event was a five-mile contest for gasoline cars weighing from 100 to 150 pounds, no restrictions as to stripping, and a 13-horse-power limit. It brought out Eddie Cowan with a 4-horse-power Rambler, W. G. Hansen with the Tourist, Fred and Ross Foster with a Sheepmobile. Hansen in the Tourist made a runaway race of it, leading from start to finish, time by miles was 1:27 1/2, 3:00, 4:25, 5:10; total time, 1:45. Foster quit on the second mile. The time was an improvement on the class at San Francisco, the best performance there being 1:59 1/2.

Five miles for stock gasoline cars were the conditions of the second race, and it brought a goodly field. Cowan and Hansen, Clarence Clark in a General, W. K. Winchester in the little Franklin and Ralph Hamlin in an Orient backseat. Hansen won the first mile, but then the Franklin began running right, and nothing could touch it in the rest of the race. Hamlin and Clark were distanced.
Another five-mile event, no restrictions as to cars, was a power limit class, won by Winchester, his car and Frank Garbutt in a White being the only contestants. This would probably have been a pretty race had not Garbutt blown out a steam fitting on the first turn and had to retire. The little machine rolled off five good miles: 1:27 1/2, 1:55, 1:17 1/2, 1:29 1/2, 1:32; total 7:41.
Five machines came out for the fourth race, a five-mile affair like its predecessors. George T. Stamm's Coroneo proved the propriety of its name by quitting; it is a two-cycle four-cylinder freak of the freakiest kind. T. L. Tinsler had a machine of his own, "Tinsler" and building entered in the race; R. D.

LAST'S STAFF NEEDS HUNCH.

Why Gen. Wankowski Has Named His Staff.

Capt. Fredericks to Quit the Command of Troop D.

Capt. Cole Probably to be Promoted to Major—No Court-martial.

Gen. Last's old staff officers need a gentle hint. They do not know that it is the military custom for the staff of a retiring officer to offer to vacate. Their failure to resign or to apply for reinstatement has placed the new brigadier-general in a funny position. Those on the inside of the National Guard situation here claim that Brig. Gen. Wankowski has not announced his staff appointments for this reason. Gen. Wankowski himself looks uncomfortable and says merely that he has not had time to think about his staff yet.
Only one officer so far has presented his resignation; this is Capt. Thomas, the inspector, and his resignation has not been acted upon. There are three vacancies on the staff. However, assistant adjutant-general, signal officer, and aide. These will not be filled until later, says the brigadier-general. In other words, not until someone gives the old staff a hunch.
The signal officer, Maj. Lovett, has promoted himself backward to take command of the Signal Corps. This will throw him to the rank of captain. His work will be more active, however.
Lovett is a young man of independent means whose people are nearly all army folk. He has had experience in military signaling in the Eastern National Guard. He is a lieutenant of the famous Arab patrol of the Shrine. Lovett has not yet qualified, but has been selected by the Signal Corps.
An election will soon take place in the corps for first lieutenant. The only candidate is Lieut. Sabine, who has held the place for a number of years. Gen. Wankowski has broken up a court martial and left a vacancy in the list of majors in the Seventh.
The general court martial ordered by Gen. Prescott to try men for being absent from duty in the city battalion had the minimum number of officers—five—and Wankowski was one of the five. A new court martial will not be ordered.
The vacancy mentioned will probably be filled by Capt. Truman Cole, the senior captain of the regiment, although one of the youngest captains in point of years. An election will not be ordered until Col. Ryan's time is out next January. The reason is that all of the officers of the regiment have to gather for the election of field officers, and it is not advisable to get them together twice.
Capt. Cole as temporary commander of Able battalion, is planning to have a practice march and field day for Companies A, C, F, and I some time in December.
Capt. Collins of I of Pandemon is about to leave the service by the expiration of his time.
Capt. Fredericks, the district attorney and commander of Troop D, is also anxious to quit the service. His second term is nearly out, and he finds his time too much taken up to give any to military matters. He will not leave, however, until the troop can find someone competent to take command. This is a very difficult matter, as there is a shortage of cavalrymen. Lieut. Freeman of the troop, who might otherwise take command, will leave if Fredericks does.
Gen. Wankowski has inspected Companies A, C and I informally. He intends to visit every company in the regiment. His coming will not be announced, as it is his desire to be a weekly drill of the band that happens every week.
Company A and other organizations are getting ready for holiday dances.

UNIVERSITY AID.
Cardinal Gibbons Asks Help of Catholics of Diocese of Los Angeles Through Letter to Vicar-General Barnett.
Vicar-General Barnett, of the diocese of Monterey and Los Angeles, yesterday received from Cardinal Gibbons, Chancellor of the Catholic University of America, a letter in behalf of that institution, and calling attention to the appointment by the Pope of the first Sunday in Advent for the taking of the annual collection for the university. For the first time in the history of the university the collection will be taken this year in the diocese of the United States. Today Vicar-General Barnett will send out letters to the clergy, urging them to take this collection on the 29th inst.
Cardinal Gibbons, in his letter to Father Barnett, speaks of the signal favor with which the university was treated by the late Pope Leo, and notes that one of the earliest measures of the new pontificate was for the aid of this, the highest branch of Catholic education in our United States. The Cardinal reviews the needs of the institution, and says:
"This work is of such a nature that it must progress; it cannot safely be allowed to remain stationary. The university has a plant and endowments, amounting in all to about \$200,000, contributed by the generosity of our clergy and laity. It is now necessary that we make good what has already been done, by adding such endowments as will complete the facilities, meet extraordinary expenses, and place the institution on a self-sustaining basis. New demands are made each year upon the university for better equipment of the existing departments, and even for the establishment of other departments, without which the several courses of instruction must be fragmentary; and for that reason in no condition to attract the large number of students for whom they are intended. An exhibit of the financial condition of the university is now being prepared, and will, as soon as possible, be placed in the hands of the bishops, and this will be done hereafter annually."

CAUGHT AT YESTERDAY'S AUTOMOBILE RACES.
(1) Toledo Frank—(2) The White Ghost—(3) Barney Oldfield and His "Bullet"—(4) Frank Garbutt in His White.

face—and a sort of good looks, climbed in. He was greeted with a shout.
The grand stand was running over with society folks and they all turned their glasses on him. A silence fell. It was a queer tribute to a man whose one bid for fame is a foolhardiness that is different from any risk that circus folks take hanging by their teeth from flying rings. They can judge and calculate; Barney is in the hands of an all-wise Providence which wasn't ready for him yesterday.
It is horrible to reflect that the slightest nervous twitch, an insect striking him in the eye or a little too much curve, and it would be for Barney to fall back on the record of his past life. There is just that much between him and a Coroner's inquest.
He got into position. There came a puff like a seedling powder and Barney and the devil-car emerged from the smoke. He was off for the fastest mile ever ridden in an automobile.
Way down by the grand stand, as he came by, he was getting ready to turn at the quarter and hugged the fence so closely that it seemed as if he must escape the paint.
The effect of his passing immediately underneath you as you sit watching is frightful. The rush and impact of it!
It is only a flash of a bunched up man and a small of gasoline and he is gone.
As he came by the first mile, a man standing on the fence poked his head at him. Barney winked and started on another lap and started on another lap.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

A new site for the Polytechnic High School on Washington street between Flower and Grand avenues was submitted for the consideration of the Council yesterday.

The Board of Health declared war on alum baking powders yesterday and a complaint was sworn out for the arrest of a clerk who sold the powder to an inspector.

Property owners in the proposed district for the widening of Sixth street from Hill to Figueroa street protested against being included before the Board of Public Works yesterday.

The Juvenile Court Committee will ask the City Board of Education for a special school teacher for the boys under detention to be brought before the juvenile court.

Christopher Stephens, the boy burglar and hold-up man, was brought before Judge Witmer yesterday.

AT CITY HALL.

NEW SITE PROPOSED FOR POLYTECHNIC SCHOOL.

HAS FRONTAGE ON WASHINGTON NEAR FLOWER STREET.

Advocates of New Site Count on Five Votes in the Council—Three Members of the Building Committee Decide in Favor of Pico and Wall Street Sites.

A new and centrally-located site for the Polytechnic High School, which threatens to cause a sharp fight in the Council, was offered to the city yesterday for \$25,000. The property belongs to William Rowland of Fresno, and is located on the south side of Washington street, between Flower and Grand avenues. It has a frontage of 172 feet on both Washington and Twentieth streets and is 201 feet deep.

This site was offered the city yesterday by W. R. Ireland, F. J. Thompson, attorney and vice commissioner, appeared at the committee rooms yesterday afternoon with Mr. Ireland to urge the purchase of the new site. Its central location and easy access from all the principal lines of travel explained to members of the Council. The University and Washington-street lines of the Los Angeles Railway Company run within one block on one side, and the Grand-avenue line of the same company is about a block distant on the other side. The Santa Monica Traction line and the Santa Monica line are three blocks distant on the north and the Main-street line about the same distance away to the eastward.

If the Polytechnic High School is erected on this site, it is pointed out that the State Normal School will stand at one end of Hope street and the High School at the other.

The advocates of this site confidently expect the support of Councilmen Brown, Skilling, Summerland, Farish and Todd, with McAlister a possibility.

Much has been said by members of the Council regarding the recommendation of the Board of Education to build the school on Pico and Wall streets. It is stated that in everything that has to do with the school the board favors the school authorities has been followed.

It was stated yesterday that all the sites submitted to the Board of Education by the school authorities, including the site at Pico and Wall streets, which is offered for \$25,000, or all which come within the \$25,000 limit placed on the cost of a site, the school authorities are said to favor the Washington street property now offered for \$25,000.

As it happened, four members of the Building Committee, which is charged with making a recommendation regarding sites to the Council, were meeting in the committee room yesterday afternoon when Mr. Ireland and his associates came to the City Hall. It was decided by the majority to recommend the purchase of the property on Pico street, between Wall and Myrtle streets. If a change was made in this policy, it is believed that the Councilmen, Kern, Folsom and Davenport will report in favor of this site, as matters now stand, their findings will determine the majority report of the Building Committee. What Councilmen Farish and Skilling, the members of the committee, will report is not known; but they are not expected to concur in the majority findings. Farish attended the session of the committee yesterday, but he was non-committal.

Skilling and Todd will follow the recommendation of Superintendent Foshey and vote for the site at Eleventh and Flower streets first and the Washington-street property next, it is said.

On the books of the City Assessor the new site is shown as a piece of 2 1/2 acres assessed to Manuella Rowland for \$7750. The average ratio between the prices asked for sites submitted and their assessed value is more than five to one, or, in other words, the assessed value is practically 22 per cent. of the prices asked on the average.

Lying between the Rowland place and Flower street is a piece of property belonging to the same estate, having a frontage of 174 feet on Washington and Twentieth streets, and should command this property and purchase the site about five acres in extent could be secured for the High School. The Jesurum property is assessed for \$10,000 on the land, and \$2800 on improvements. It is thought that \$25,000 would purchase the entire five acres.

FOR PURE FOOD.

BAKING-POWDER WAR.

The baking powder war is on in earnest. Yesterday noon the Board of Health in special session declared that all alum baking powders should be put under the ban. These powders are handled by an association known as the American Baking Powder Company, which is fighting the Royal Baking Powder Company, commonly known as the trust.

Naturally the manufacturers of the alum powders see the fatal hand of the trust behind the action of the Board of Health, but at present there is no evidence that such is the case.

A short executive session preceded the open meeting. Dr. Hitchcock declared that after further consideration he was prepared to move that the board determine through the courts the deleterious effect of alum baking powders on the public health.

Mayor, who seemed somewhat excited, and Dr. Salisbury voted with Dr. Hitchcock for the arrest of persons selling baking powder containing alum. Dr. Day did not vote, and Dr. Johnson was absent. Apparently some feeling was engendered at the executive session in the Mayor's office.

But what caused it could not be ascertained.

Later in the day a complaint was sworn to against A. P. Salmi, a clerk in Albert Cohn's store at No. 225 South Main street, possibly sold K. C. baking powder to Inspector J. E. Drummond, who has displayed district diligence in leading the various brands of alum baking powder.

A. C. Jaques, who is here in the interest of the K. C. powder, appeared at the noon session of the Board of Health in company with Attorney W. T. Craig of the firm of J. L. Craig & Co. They did not address the board.

According to Mr. Jaques there is about \$100,000 invested by local dealers in the alum baking powders which sell for about 15 cents a pound. The trust product, or cream of tartar powder, sells for 50 cents a pound. It was stated that 100,000 pounds of alum powders are sold in the United States every year, and that the health boards of our cities have involved in the fact that alum as used in the association baking powders is not injurious to health.

TALKS WITH TRAVELERS.

SIXTH STREET.

WIDENING AGREEMENT.

Before the Board of Public Works yesterday afternoon there was a heated discussion regarding the limits of the proposed widening of Sixth street between Hill and Figueroa streets.

The report had gone abroad that the district would be made to include property extending one-half block each side of Sixth street as far east as Los Angeles street and as far west as 130 feet beyond Figueroa street.

Property owners of Spring, Main and Broadway protested that their property would not be benefited at all by the widening of the street. They argued that the tendency of the improvement would be to divert business to Sixth street and take it from the main streets.

Attorney Charles H. Hentz defended the proposed district. He said all the property would be benefited by the widening of the street, and that there were numerous precedents for such a district.

J. H. Spies argued that inasmuch as the property owners on Spring street as far east as Olive street had been compelled to pay for a sixty-foot widening of the street, the district should extend as far west as Loomis street.

The probable cost of the improvement was placed at the way from \$300,000 by the protesters to \$70,000 by the petitioners. Next week an estimate of the cost of widening the street will be made by Col. W. G. Schreiber.

The board took no action, and the boundaries of the district are as yet undetermined.

Another Health Inspector.

At its special session yesterday noon the Board of Health tried to ask the Council to provide another health inspector for the department, making a total of three. It is thought that several eligibles are now on the civil-service list, and if the Council approves the recommendation, the board will submit a list of eligibles to the Mayor for his selection.

The board approved the ordinance submitted at its regular meeting regarding the terms of quarantine and the delivery of milk.

Numbers for "Autos."

Owing to the anxiety of automobilists to secure numbers for their machines before the ordinance requiring them to be numbered goes into effect, the City Clerk will open up a registration list next Monday morning. Those who have not yet secured their numbers, and doubtless there will be quite a scramble to get the small numbers.

AT THE COURTHOUSE.

LITTLE CRIMINALS TO HAVE SCHOOL TEACHER.

THE JUVENILE COMMITTEE HAS EDUCATIONAL PLANS.

Upstairs Part of Old County Jail Will be Fitted as a Dormitory and a Home for the Young Culprits—Yesterday's Session of Court.

The ladies of the Juvenile Court Committee are to ask the City Board of Education to detail a special school teacher to diffuse the light of learning on the boys detained in the old County Jail awaiting the action of the court. This was decided upon yesterday.

As soon as the old cells are out, the whole upper floor of the old jail will be fitted up especially for a detention home for these boys.

They will be in charge of a matron, a man guard, and this school teacher. The committee are in doubt as to whether it will be best to keep the boys in separate rooms or in a common dormitory. The dormitory is the most convenient, but Miss Stoddard, who has become an authority on college settlement work, believes that lack of privacy is the cause of much of the wrongdoing among the children of the tenements.

The committee is pleased at the manner in which their requests for money have been responded to.

There was another session of the Juvenile Court before Judge Wilbur yesterday. One of the culprits was a hard-looking little boy named Carl Cody, the son of John E. Barbara. When the judge asked him why he had run away from his home, he replied, brazenly, "Well, I'm a hobo."

He was sent to the reformatory, the ten-year-old criminal who has been caught by the police in a burglary and a highway robbery, was also brought up.

The judge asked him if it was true that he was a hold-up man, and he replied, "Yeth, thir." He was sent home temporarily, until his mother can be brought to court for his trial.

One little darky boy with big soulful eyes was sent to Whittier. He was the victim of a big appetite. The manager of the McKee Hotel Home testified he used to be down there and was good just as long as they kept a special plate of cookies out for him to eat between meals. When the cookies gave out, he always left from grace. After he left the home there was no one to

fill him with cookies, so he stole a watch and a savings bank.

ADULTERERS' EXAMINATION.

CONTINUED TO THIS MORNING.

Cringing from the curious eyes that were focused on them, Mrs. Daisy J. Salmon and her husband's brother, Albert R. C. Salmon, with whom she fled from Newark, N. J., were in Justice Young's court yesterday afternoon for examination on the charge of adultery. They were represented by Attorneys Rush and Seeds. J. R. Salmon, the avenging husband and brother, was in court with a determined expression on his face and refrained noticeably from looking at the traitorous pair. His brother acted the contrite criminal and safely raised his eyes from the floor, while his paragon had a terribly smug and beaten look on her face. Attorney Rush said that he had not found time to go over the case with his clients and the examination was continued until this morning at 9 o'clock.

AUTO RACE.

THE BENJAMIN "CROFTON"

is the greatest of all Great Coats, and bears this famous mark.

For football, skating, travel, and all winter sports and recreations the "Crofton" is the ideal overcoat. Cut 52 inches long, in smartest style, from English and Scotch checks and fancy weaves; broad, concave shoulders; hand-felled collars that fit close; pockets that won't rip; one-piece belt in the back.

The price is right. Here's where you'll find the "Crofton"—no where else.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES,
Los Angeles, Nov. 20, 1903.

FINANCIAL.

TODAY'S CLEARINGS. The clearing of the Los Angeles Clearinghouse today amounted to \$23,877.73, as compared with \$20,572.25 for the corresponding period last year, an increase of \$3,305.48. Following is a comparative statement of local clearings day by day for the week as it ensues, beginning Monday, November 16:

	1902.	1903.
Monday	\$1,727,561.42	\$2,387,777.73
Tuesday	1,234,325.91	1,000,000.00
Wednesday	1,445,751.11	1,122,725.00
Thursday	1,107,458.22	871,951.11
Friday	828,737.73	969,572.25

FINE STATEMENT. In today's issue there appears the sworn statement of the Los Angeles National Bank to the Comptroller of the Currency. This statement shows an increase in deposits since the previous statement to the comptroller of \$221,923.23. The statement shows available cash, \$1,274,137.70. The bank's capital is \$500,000. Its surplus and undivided profits aggregate \$259,924.44. Its gross assets, \$4,727,561.42. It has \$250,000 of government bonds, which are carried at par.

OVER BONDS NORTH. In San Francisco yesterday 1000 Los Angeles Pacific first cons. bonds sold at 101; 2000 Pacific Electric at 101.

STOCKS AND BONDS. The Los Angeles Stock Exchange reported the following sales today:

Stocks	Shares	Price	Value
Yards King	100	\$1.25	\$125.00
Palmer	100	\$1.00	\$100.00
American Nat'l Bank	100	\$1.00	\$100.00
Totals	300		\$325.00

Quotations were reported officially by the exchange today as follows:

Stocks	Bid.	Asked.
Atchafalpa	1.10	1.15
Atchafalpa	1.10	1.15
Atchafalpa	1.10	1.15
Atchafalpa	1.10	1.15

COMMERCIAL.

SCOTCH OATS ADVANCE. A card was put out today advancing the price of Scotch oats 25 cents a case, making the new quote at \$1.25 for 100 bushels, \$3.50 per case. Five to nine cases at \$1.25 per case; ten cases and up, \$1.30 per case.

BEANS STEADIER. Says the Commercial News of San Francisco: The situation in Lima is rather steady, lack of rain in Ventura county has caused some fear for the new crop, and primary markets are a shade firmer, 2 1/2 cents being the general asking price. Pinkas are the most active of all varieties; they are in very good demand, and are quoted higher. Reds are scarcer, and also red kidneys, prices being sharply advanced.

DRIED FRUITS. The prune market shows no change from its previous dull and unsatisfactory condition. Those who sold their stock early in the season are congratulating themselves on having secured good prices, while present holders are witnessing a weak market with a strong possibility of lower prices before the holiday activity sets in. There was quite a large carry-over of old prunes in the State, and the early demand was pretty well supplied with them, which has given outside buyers the opinion that prices for this year's crop are too high as a result they are awaiting a reduction. Some sales of Santa Clara stock are reported on a 2 1/2-cent basis, but more are made at 2 1/4 cents, while outside stock is selling at 2 1/4 cents. The size of the crop in Oregon is also a depressing feature; holders there are over-producing and buyers backward. For other fruits the demand is slow, the early orders being pretty well shipped out; while the market is not quotably lower, there is a distinct tendency toward a decline.

Hay and Grain.

POULTRY. Dealers pay live weight for stock in and about the city. Old fowls, 10 cents; 1901; for turkey, 1902; 1903; 1904; 1905; 1906; 1907; 1908; 1909; 1910; 1911; 1912; 1913; 1914; 1915; 1916; 1917; 1918; 1919; 1920; 1921; 1922; 1923; 1924; 1925; 1926; 1927; 1928; 1929; 1930; 1931; 1932; 1933; 1934; 1935; 1936; 1937; 1938; 1939; 1940; 1941; 1942; 1943; 1944; 1945; 1946; 1947; 1948; 1949; 1950; 1951; 1952; 1953; 1954; 1955; 1956; 1957; 1958; 1959; 1960; 1961; 1962; BENZINE BUGGY

CLIMBS IRON FENCE.

SPILLING BUNCH OF ACTORS IN

THE SHORT GRASS.

Sorry Result of Gus Weinberg's En-

deavor to Amuse His Boys and Girls.

Trouble Was the Blamed Thing

Wouldn't Stop.

Gus Weinberg, the tall stork of "The

Storks" company, broke loose from the

Mason hotel cage yesterday afternoon

and carried the principal boys and

girls of his aggregation out for an au-

tomobile ride to the races.

The fact that they all came back in

discomfiture and pain was no fault of

Weinberg's. It was all because the

machine wasn't built to stand an Old-

field pace and consequently dumped

steerwhile bunch a few blocks after

they began to get speed on.

The party left Second and Broadway

about noon in high gear, with a rented

vehicle. At Pico and Figueroa they

endeavored to foot things up a little,

and the obstreperous iron steed ran

away. After sailing down Figueroa to

Jefferson they turned frantically on

it thoroughfare, ran up over the

sidewalk, endeavored to climb an iron

fence and were spilled ignominiously out

into a horse lot.

Weinberg says that on Figueroa they

were over a little dog's tail, whose per-

son—after they had passed—was seen

barking at the blast of the horn as it

caught up with the flying steed. This

is related as an illustrative pointer on

their speed. The ladies of the party

went on to Agricultural Park, but

Weinberg didn't—he was too nearly

broke on repairs.

"The Storks"

Sheet Music at Half Price.

All of the favorite pieces from this popular musical fantasy offered for sale Saturday at just one-half publisher's price. A partial list of titles follow:
Song of the Night.
It is All Such a Horrible Bore.
Dreamland Maid.
Flirty Little Gertie.
Terrible Puppy Dog.
Fisher and the Mermald.
That's How Calisthenics Go.
We Are Strolling Peddlers.
He Disappeared.
Soldiers to the King.

I WILL GIVE \$1000

IF I FAIL TO CURE ANY CANCER OR TUMOR

I treat both the Cancerous Deep Glands or Adenomas in Bone.

NO KNIFE OR PAIR, NO PAY UNTIL CURED.

No Suffering X-Ray or Heat Treatment.

A Pacific Island scrub or plant makes the cure—the most wonderful discovery on earth to-day. 3000 CANCERS cured on people you can see and talk with. ANY TUMOR, LUMP OR SORE on the lip, face or anywhere six months is, nearly always, Cancer. Poor cured free if cancer is very small.

ANY LUMP IN A WOMAN'S BREAST IS CANCER

It does not pain until almost past cure, and if neglected it ALWAYS poisons the deep glands in armpits; then it is often too late and still no pain. Deep in the shoulder death is certain. BE SURE TO GET OUR 120-PAGE BOOK, sent free, with symptoms, addresses and testimonials! Thousands cured, and write to them.

DR. S. R. CHAMLEY & CO., ("Strictly Reliable.") Two Lady Assistants.] 515 S. MAIN STREET, LOS ANGELES, CAL.

PLEASE SEND THIS TO SOME ONE WITH CANCER.
